Conestoga Small Cap Fund Now Available on Schwab OneSource Platform

Radnor, PA, February 7, 2008 - Conestoga Capital Advisors, LLC, an independent investment advisory firm specializing in the management of small cap equities, announced today that its Conestoga Small Cap Fund would be available to investors through the Schwab Mutual Fund OneSource® service. The Fund is now available to independent registered investment advisors and their clients at Charles Schwab & Co. Inc. The Schwab Mutual Fund OneSource® service allows individuals to invest in mutual funds from many well-established fund companies without paying loads, transaction fees or commissions.

Bill Martindale, Managing Partner and Co-Manager of the Fund, said, “We launched the Conestoga Small Cap Fund to offer individuals, smaller institutions and defined contribution plans the same investment approach that we provide to institutional and high net worth clients. Our more conservative approach to small cap investing, which focuses on companies with positive earnings and sustainable growth rates, is one that we believe is especially appropriate in today’s more volatile environment, and we’re excited to make it available through the Schwab Mutual Fund OneSource® service.”

Martindale, along with Co-Manager Robert Mitchell, have managed the Fund since its inception on October 1, 2002, and have been working together managing small cap assets for over ten years. They select stocks using a "hands on" approach that often includes on-site inspection of companies and interviews with management. The strategy seeks to provide long-term capital appreciation with less volatility than the Fund’s benchmark and other comparable small cap managers.

Mark Clewett, Managing Partner and Institutional Sales Director added, “We have been growing our business through a number of wealth advisory firms that prefer the Schwab Mutual Fund OneSource® service for mutual fund investing, and we have taken this step to provide them easy access to the Fund.”
